

# Quick Guide: How does it work?

AP<sup>®</sup> Insight: classroom tools designed by teachers to empower more students to succeed in AP.

## AP Courses with Insight:

AP Insight: Biology  
AP Insight: Calculus  
AP Insight: Chemistry

AP Insight: U.S. History  
AP Insight: World History

## Real-Time Classroom Tools

Students:

**Use progress tools** as a road map to aim and monitor learning

**Engage in real-world problem solving** to build and check understanding

**Take quizzes that mirror the AP Exam** to gauge level of understanding, skills, and gaps

**Use feedback reports** and direct resources to reflect and improve

Prepare

Teach

Assess

Act

Teachers:

**Target challenge areas** and anticipate misunderstandings before instruction

**Assign performance tasks** to scaffold concepts and skills

**Assign assessments for learning**, online or on paper, in class or as homework

**Use class and student feedback reports** to pinpoint and close gaps in misunderstanding

## Sustained Professional Support

Teachers:

**Attend virtual workshop** to learn about Insight tools and decide how to use in own syllabus

- **Access self-paced learning** for help unpacking critical concepts and skills and applying formative assessment strategies
- **Participate in virtual PLC sessions** for just-in-time tactical support to improve achievement
- **Share what works in collaboration space** for new and experienced teachers

Getting Started

Throughout the Year

Administrators:

- **Provide local support for program kick-off**
- **Watch virtual tour** (optional)

- **View progress reports** for every school, class, and student as needed
- **Engage teachers** to learn what works and where additional support will help

## What do I need to support Insight?

Getting started with AP Insight is easy. Once subscribed, all a teacher needs to use this program is:

- A computer with Internet access**
- Printing capabilities**
- A College Board account** (the same login and password used to access the AP Course Audit)

## How do the assessments work?

AP formative assessments mirror each AP Exam and are provided in online and offline formats to support schools with varying infrastructures. Teachers assign AP Insight questions in class or as homework to fit their syllabus.

- **Multiple-choice quizzes** can be given online or offline.
- Students receive feedback on each question online after testing or via printed feedback reports.
- **Free-response questions** are given to help build the skills students need on the AP Exam.
- Teachers grade student responses using **AP Reader rubrics**.
- Teachers can enter scores online or upload student responses to automate the process.
- **Any multifunction printer** or scanner that can create a PDF will work.
- **Feedback reports** identify key areas of understanding and misunderstanding for each student and class, and recommend resources to improve learning.

## How does the professional learning work?

- **An introductory webinar** kicks off implementation
- Six hours of **online learning** can be used by teachers at any time, on any schedule.
- Four **virtual PLC sessions** are held throughout the year to provide support as teachers need it.
- **Collaboration space** guided by expert AP Insight teachers.
- **Optional on-site professional development** can be requested by school systems for an additional fee. Trainings are led by an expert AP Insight teacher on targeting challenge areas and implementing formative assessment strategies in AP.

## How do I subscribe?

Access to AP Insight is available for a subscription fee based on the size of your AP program or classroom. Teachers, districts, and state departments of education all currently subscribe to AP Insight.

Subscriptions enable participation by AP teachers and the students they support. For a quick estimate, representative College Board member costs follow:

- 1 AP teacher with 30 AP students = \$750
- 3 AP teachers with 100 AP students = \$2,250
- 5 AP teachers with 150 AP students = \$3,750
- 10 AP teachers with 200 AP students = \$7,500
